- Sub question 3: `sudo apt install games-teris+ dragonplayer+ midori- geary- lollypop- -y`

Question 4

command	what it does
---------	--------------

command	what it does
echo	display a line of text
fortune	prints a random, hopefully interesting, adage
cowsay	Cowsay generates an ASCII picture of a cow saying something provided by the user.
lolcat	lolcat is a program that concatenates files, or standard input, to standard output (like the generic cat), and adds rainbow coloring to it.
figlet	FIGlet is a program for making large letters out of ordinary text
toilet	TOilet prints text using large characters made of smaller characters. It is similar in many ways to FIGlet with additional features such as Unicode handling, colour fonts, fil-ters and various export formats.
rig	Rig is a utility that will piece together a random first name, last name, street number and address, along with a geographically consistant (ie, they all match the same area) ity, state, ZIP code, and area code.
